

Hazeldean's Proven Genetic Performance

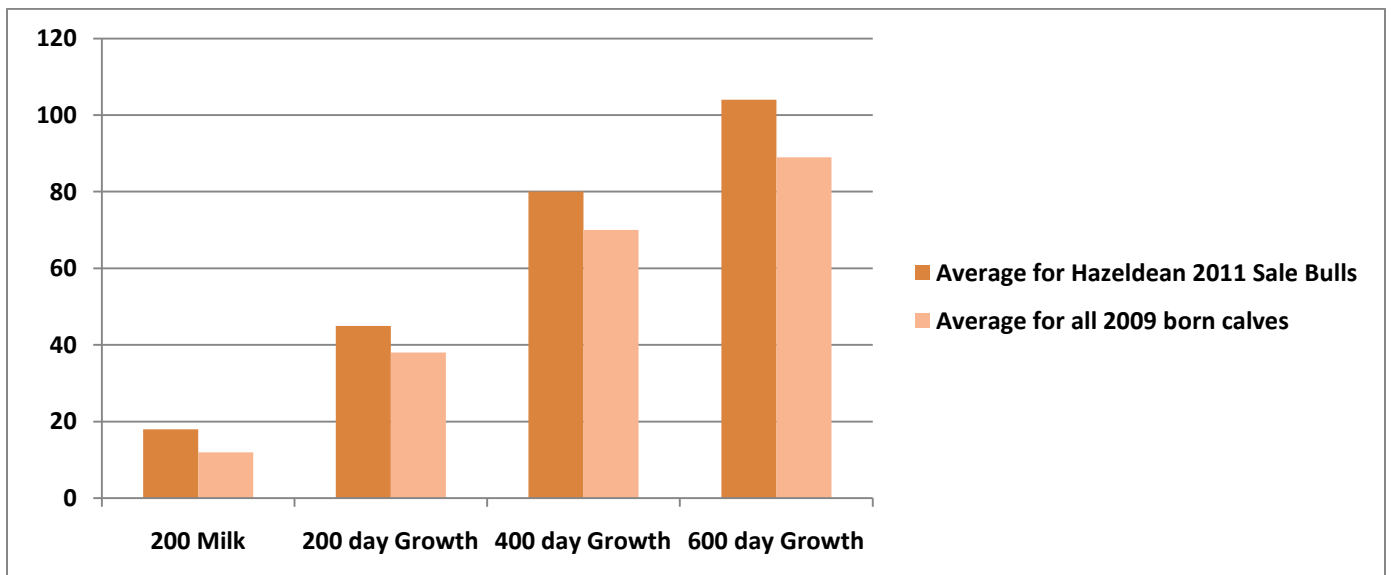

2011 Sale Bulls compared to Angus Breed Averages
July 2011 Group Breedplan

CALVING EASE

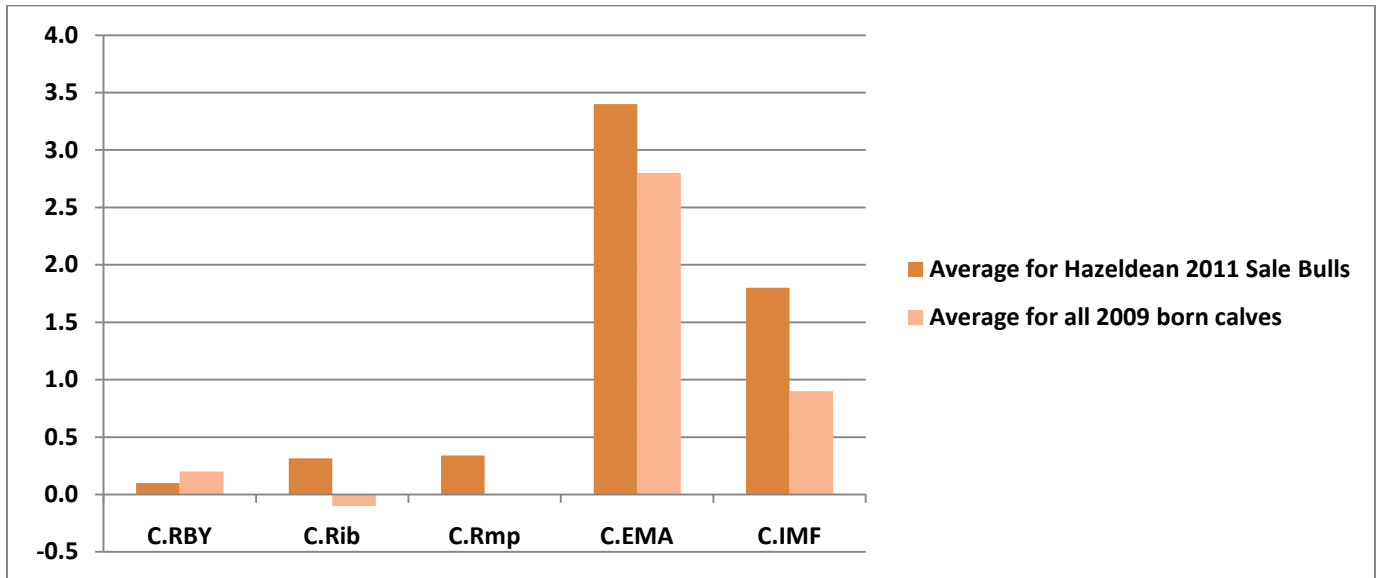

Our cattle are **very fertile**. They have **low birth weights**, meaning **more live calves** & less stress on females. They have **fewer calving difficulties**, and our bulls sire daughters with **superior calving ease** & **shorter gestation length**, meaning lower birth weights & more time to get back in calf again for next year...

GROWTH

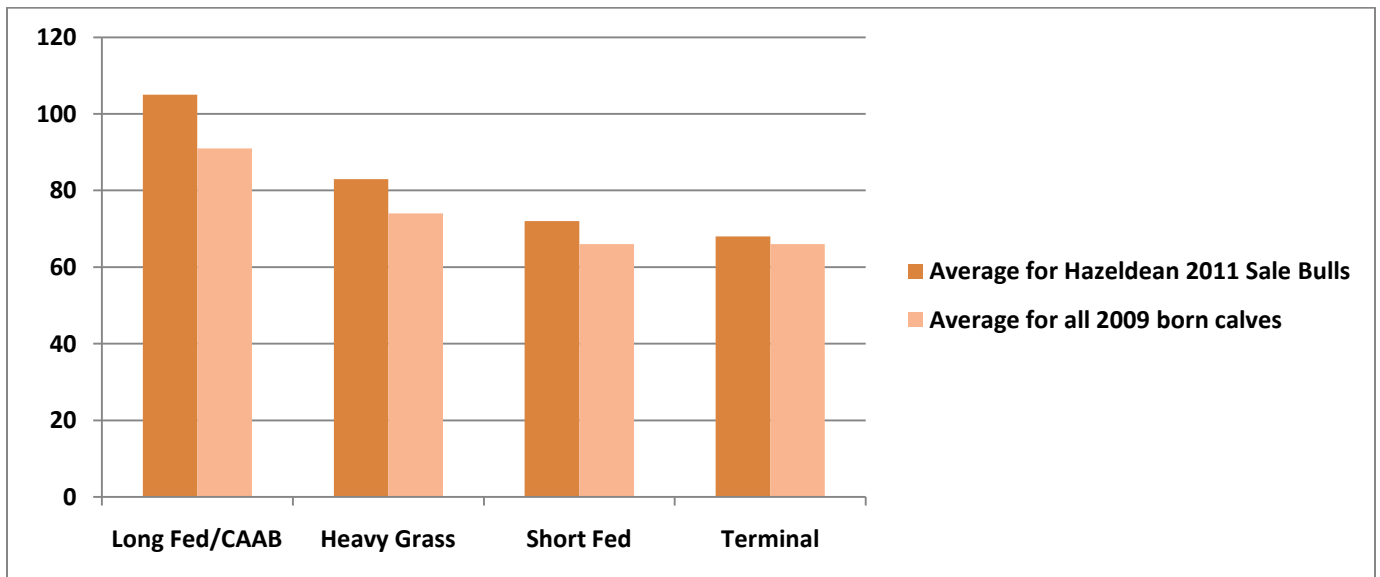

...yet **growth is above breed average** giving you **heavier steers**...

CARCASE

...to produce calves with **above average meat content & above average marbling**

MARKETS

...to hit key markets ahead of the pack
